

Market Information Haiti Marketplace

The Haiti Building Markets Portal is part of the Haiti Marketplace project which was launched in Port-au-Prince in August 2009. Its objective is to help create jobs and inspire long-term economic growth and stability in Haiti by facilitating increased access to locally available goods and services.

The Portal contains a business directory with comprehensive profiles of over 3,700 verified local businesses that are searchable by sector and location; a tender directory where suppliers can gain access to new business opportunities; relevant research on the Haitian marketplace; and other important information on Building Markets' services in Haiti.
